

How To Get a COVID-19 Vaccine

Centura Health is proud to be able to offer the COVID-19 vaccination to our thriving communities, and we recognize that many individuals across Colorado and Kansas are excited to receive the vaccine.

An appointment is required to receive the COVID-19 vaccine and walk-ins cannot be accommodated at this time.

If you are a Centura Health patient, you will receive an invitation when it is your time to receive the vaccine through MyCenturaHealth, our patient portal. These invitations will be sent based on the state's phased prioritization. This process will be randomized and equitable without discrimination based on race, color or ability to pay.

If you are not a current patient, you can sign up to receive additional information and instructions about the vaccine through email and/or text message. Once you complete the form, you may not receive correspondence immediately. However, Centura will provide updates and scheduling instructions once the vaccine becomes available to you. **Please note: You are not required to complete the form to receive the vaccine.**

Simply scan or hover over this QR code or visit centura.org/vaccine to sign up and complete the vaccine notification sign-up form to receive information on scheduling.
